Rule 5: Look at Each Column

We need to make sure all of our data makes sense in context. You can find the source data at this link: <https://www.kaggle.com/minitree/eurovision-song-lyrics>

ID

This is an ID number assigned to each song. We should check that the song IDs are all unique.

```
songs %>% count(ID) %>% filter(n > 1)

## # A tibble: 0 x 2

They are unique, but they're also not useful, so delete them.

Voici mon Prince Charmant
Il sourit tendrement
Je m'avance vers lui
Le cœur battant

Minute brève
Comme en un rêve
Nos deux êtres pleins d'amour
Vont être unis pour toujours
Ding dong
Ding dong

Quel instant émouvant
Je suis tout étourdie
Puis ta main sur ma main
Simplement j'ai dit oui

Orgue en sourdine
Tout s'illumine
Le portail est large ouvert
Nous sortons sous le ciel clair
Ding dong
Ding dong

On nous admire
Et j'entends dire
«Regardez, elle est jolie»
Comme ils sont bien assortis
Ding dong
Ding dong

Un doux bonheur m'étéreint
Tandis que sur ma main
Tes yeux caressent
Mon anneau d'or fin
L'espace d'un instant
Je refais le serment
De vivre pour
T'aimer fidèlement

Les cloches sonnent
Tout carillonne
Pour que jamais je n'oublie
Le plus beau jour de ma vie

Nur die Liebe läßt uns leben
Tage im hellen Sonnenschein
Kann nur sie allein uns geben
Nur wer liebt wird niemals einsam sein

Wir warten und wir hoffen und wir träumen

Der Tag vergeht und nimmt die Träume mit
Die Nacht ist lang und du bist nicht mehr bei mir;
Doch mein Herz es findet einen Weg zu dir

Nur die Liebe läßt uns leben
Alles vergessen und verzeihn
Dann wird wieder dir vergeben
Nur wer liebt wird niemals einsam sein

Nur die Liebe läßt uns leben
Tage im hellen Sonnenschein
Kann nur sie allein uns geben
Nur wer liebt wird niemals einsam sein

Ich wußte
Daß die Wege
Die wir geh'n
Verworren sind und daß es Tränen gibt
Es zählt nicht mehr
Daß du das Ziel gesehn;
Du wirst die Straße deiner Sehnsucht gehn

Nur die Liebe läßt uns leben ...

Sag ihr, ich lass' sie grüßen
Sag ihr, es geht mir gut
Sprich nicht von den Tränen
Und wie weh mein Herz noch tut

Sag ihr, ich lass' sie grüßen
Sag ihr, ich bin vergnügt
Sprich nicht von der Hoffnung
Die so oft mein Herz belügt

Grüß sie, wenn du sie siehst
Und wenn sie dann von mir spricht
Erzähl ihr das, was du willst
Nur die Wahrheit, die sag bitte, bitte nicht
Oh-hoho

Sag ihr, ich lass' sie grüßen
Sag ihr, es geht mir gut
Sie ging fort, fort von mir
Und sie weiß, dass nichts mir blieb
Trotzdem sag ihr, ich hab' sie lieb

Sie ging fort, fort von mir
Und sie weiß, dass nichts mir blieb
Trotzdem sag ihr, ich hab' sie lieb

Oh-ho, ich hab' sie lieb

## Did somebody dare to tell what's right
## Which colours to wear to laugh or cry
## You want to be fair and maybe you're right
## Lets burn our fingers stop the fight
##
## Always driving through the red lights babe
## Everybody stops but me
##
## Just run away to the stars
## Just run away 'til you're high enough
## I will be waiting above
## And make that happen I tried so hard
##
## How lucky you are your statement in fine
## Because what you think is what you find
##
## Always driving through the red lights babe
## Everybody stops but me
##
## Just run away to the stars
## Just run away 'til you're high enough
## I will be waiting above
## And make that happen I tried so hard
##
## Just run away to the stars
## Just run away 'til you're high enough
## I will be waiting above
## And make that happen I tried so hard
##
## Did somebody say it's gonna be easy
## Til you get to where you do belong
## Your newly opened mind explains the reasons
## Why you have to carry on
##
## Just run away to the stars
## Just run away 'til you're high enough
## I will be waiting above
## And make that happen I tried so hard

## [Intro]
## I don't wanna lose control, but I'm falling
## Falling down
##
## [Verse 1]
## I got this panic emotion that I cannot describe to you
## My world is tumbling down what am I, what am I gonna do
## Ca-can't deny it, deny it, what am I going through
## Ca-can not fight it, can fight it, now I'm looking for the truth

```

 ## [Pre-Chorus]
 ## I don't wanna live a lie / Checking on my sanity
 ## 'Cause maybe baby I can do without / Is it all a fantasy?
 ## I don't wanna live a lie / Is this my reality?
 ## It's spinning round and round day and night
 ##
 ## [Chorus]
 ## I don't wanna lose control, but I'm falling
 ## I just can't believe it
 ## Never thought that I would be the one
 ## Falling down
 ##
 ## I don't wanna lose control, but I'm falling
 ## I just can't believe it
 ## Never thought that I would be the one
 ## Falling down
 ##
 ## [Verse 2]
 ## I'm on a critical mission, got my destiny in my hands
 ## Like Peter Piper I take control put a spell on the mass
 ## I cause hysteria, worry yourself, that's how I roll
 ## It's not a drill, I'm for real, I'm a man who's out of control
 ##
 ## [Pre-Chorus]
 ## I don't wanna live a lie / Checking on my sanity
 ## 'Cause maybe baby I can do without / Is it all a fantasy?
 ## I don't wanna live a lie / Is this my reality?
 ## It's spinning round and round day and night
 ##
 ## [Chorus]
 ## I don't wanna lose control, but I'm falling
 ## I just can't believe it
 ## Never thought that I would be the one
 ## Falling down
 ##
 ## I don't wanna lose control, but I'm falling
 ## I just can't believe it
 ## Never thought that I would be the one
 ## Falling down
 ##
 ## [Bridge]
 ## I'm falling, I'm falling
 ## And I just can't believe it
 ## I'm falling, I'm falling down
 ##
 ## [Chorus]
 ## I don't wanna lose control, but I'm falling

## Do you know what I think?
## That I shouldn't think
## 'Cause when I think, I'm an animal
## And If I think of you, you're a soul
## But maybe is this storm
## which brings me to you
## And I know, I shouldn't be around
## Without a shield even if
## but I got that
## As much as I run away
## I always come back to you
## 'Cause you make noise here
## And I don't know if it does me good
## If your noise suits me
## But you make noise, yeah
## And I cannot bear it
## This unnatural silence
## Between me and you
## And I wander around without talking
## Without a place to reach
## I wear out my shoes
## And maybe my shoes
## Know well where to go
## ('Cause I find myself in the same places)
## (Those places I had to avoid)
## (And I pretend not to remember)
## (And I pretend to forget)
## But I got that
## As much as I run away
## I always come back to you
## 'Cause you make noise here
## And I don't know if it does me good
## If your noise suits me
## But you make noise, yeah
## And I cannot bear it
## This unnatural silence
## Between me and you
## But you make noise, yeah
## That I cannot bear it
## This unnatural silence
## And I don't wanna do without it anymore
## That beautiful noise that you make

 ## For others a journey to the South is something chic and find
 ## But two little Italians would rather be back home. Two little Italians, dreaming of Naples.
 ## Of Tina and Marina, who've been waiting for a long time
 ## Two little Italians, who are so alone.
 ## For others a journey to the South is something chic and find
 ## But two little Italians would rather be back home. Oh Tina, Oh Marina, if we get to see each other again
 ## But both Italians would rather be back home. Two little Italians never forget their home.
 ## The palm trees and the girls on the beach of Naples
 ## Two little Italians, they understand.
 ## For others a journey to the South is something chic and find
 ## But two little Italians would rather be back home. Oh Tina, Oh Marina, if we get to see each other again
 ## But both Italians would rather be back home. Two Little Italians at the station, everybody knows them
 ## They come every morning for the express train to Naples.
 ## Two Little Italians, looking at the train as it leaves.
 ## For others a journey to the South is something chic and find
 ## But two little Italians would rather be back home. Oh Tina, Oh Marina, if we get to see each other again
 ## But both Italians would rather be back home.

According to Wikipedia, there were four winners in 1969:

https://en.wikipedia.org/wiki/Eurovision_Song_Contest

On only one occasion have multiple winners been declared in a single contest: in 1969, four countries finished the contest with an equal number of votes and due to the lack of a tie-break rule at the time, all four countries were declared winners.[7][157]

Rule 6: You May Need to Go Back

Our original parse function just grabbed `translation` as is. After looking at `translation`, we can see that this variable says `English` if the original song lyrics are in English. `English`.

Rule 7: Save the Data and Write it Up

It's critically important to make detailed notes about any changes you have made when cleaning the data.

```
filenamepath <- glue::glue("./data/{lubridate::today()}-eurovision.rds")  
filenamepath
```

```
## ./data/2025-02-17-eurovision.rds
```

```
write_rds(songs,filenamepath)
```
